

# Parent Advocacy Project

**The Human Relations Parent Advocacy Project** is being established to provide culture specific, on-going support to parents/guardians with children in the Guilford County School System. The purpose of the project is to improve conditions for students by improving their school environment and their academic outcomes. The Parent Advocacy Project will seek to accomplish its goal via support from the participating agencies of which the Guilford Community Education Committee is comprised. The first in a series of culture specific trainings will focus on African-American/Black children. Any and all persons interested in participating in the trainings or in becoming a member of the Guilford Community Education Committee are welcome regardless of race, color, national origin, creed, religion, gender, family status, or ability. This first meeting is an orientation: more substantial trainings will be provided to those choosing to participate long-term. Parent Advocates will be well trained to assist other persons in navigating and getting the best out of our school system. Parent Advocates will serve as on-site representatives at local churches and/or community centers and provide much needed support to other parents. **YOU DO NOT HAVE TO BE A PARENT TO BECOME A PARENT ADVOCATE!**

## Additional trainings to follow include:

*Training Locations in High Point TBA \* Spanish language Training ~ Needs specific*
